

Diamond Drill

Out of the Past

January 9, 1925

Newly elected Iron County Sheriff Dickie has appointed Dan VanWagner to the position of undersheriff. Robert Wilson and John Shemky were designated deputies and Louis Aeschliman Sr. will be the jail turnkey.

Crystal Falls is getting to be a robin haven. The number of robins which winter here have been increasing with confirmed sightings being made by local expert spotters Mead LaPlante and Bill Reynolds dispelling the statements from John Stolberg that the birds are grosbeaks.

A request from Iron County officials have been made to the Board of Supervisors that the Courthouse doors be locked at night. The front door has been left unlocked so that any officer finding it necessary to get into their offices is available at any time. Recent reports state that youngsters nightly have been prowling about the building with teen couples using it as a love nest. Additional evidence of craps games and cigarette butts show that it has also become a hangout for juvenile delinquents.
