

Diamond Drill

Out of the Past

December 22, 1949

As a result of information conveyed to Santa Claus the jolly old fellow made a special trip to Crystal Falls to meet the area children whom he has heard so many good things about. What was so special about Santa's visit was that he arrived by airplane at the Municipal Airport in the Western Location. Over 50 cars were on hand to greet Santa as he disembarked from an airplane flown by Clinton Davis. An estimated crowd of 2,000 children and adults lined the main street to greet Santa as he rode in the Crystal Falls fire truck tossing out treats to the delight of the gathered crowd.

Dear Santa: Please leave my little brother Wesley a barn and animal set. I would like a doll and two front teeth. I'm 7 and Wesley is 4. Susan Wiggins; Dear Santa: I am nine years old and my brother Mickey is five. Here are some things we want for Christmas. I would like a sewing machine, a doll, figure skates, some books and games. Mickey would like a sled, fire truck and bowling set. Thank You, Carol Jean Diqui. P.S. Don't forget my nephew Jimmy Trepasso. He keeps asking for a doll even though he is a little boy.
