

Diamond Drill

Out of the Past

May 23, 1924

Dr. F.P. Noyes is making improvements to his residential property located on the Southeast corner of South Fifth Street and Michigan Avenue (201 S. Fifth). The well-respected dentist, whose office is located on the upper floor of the Scadden Building (301 Superior) has re-roofed his home, reconstructed porches and covered the entire building with stucco. The residence has long been one of the finest homes in the City having been constructed by Crystal Falls pioneer attorney A.L. Flewelling in the 1890's.

As a sample of the amount of traffic on the Crystal Falls to Iron River road a recent trip from Iron River to Crystal Falls on Sunday afternoon a total of 174 cars were met between the hours of five and six o'clock when vehicles are most numerous on the road.

The largest rainbow trout weighing 5 1/4 pounds ever brought to Alpha, many say the largest ever caught in Iron County, has been on display at Reed's Drug store to the admiration of many local admirers. Clarence Teller caught the fish in Armstrong Creek.
