

Diamond Drill

Out of the Past

May 12, 1949

The Milwaukee Road's Iron County Railroad passenger line operating between Channing and Iron River has been discontinued ending 35 years of daily train service on the line. A daily motorbus will be used to transport passengers, mail and perishables over the route. Railroad officials advised that the business volume of passengers and freight was not sufficient to continue operations.

Mr. and Mrs. Albert Kubicsko have purchased the Henry Lake home at 104 Wagner Street in the western Location and will occupy the bungalow-style residence next month.

The opening of trout fishing season is usually good for a few tall stories with great undocumented tales of the size, quantity but never the location of a catch. Two small fry of the town, Tom and Gary Aberly, brought to the Drill office six beauties taken but two blocks from the main street at the old water works pond adjacent to Iron County Road Commission garage at the end of Urban Avenue.

Ad: For sale – Hit and Miss Rag rugs, 24" x48", \$1.00, Anderson Variety Store (328 Superior).
